IS THIS MASTERCLASS FOR YOU?

*Already placing implants but want
to treat complex maxillary posterior
defects? Then YES!*

LIVE

2

SURGERIES

- Lateral window sinus augmentation:
Full protocol
- Transcrestal sinus augmentation:
Osseodensification protocol I/II

HANDS-ON EXERCISES:

- Lateral window preparation, membrane
elevation, graft feed & window seal
- Transcrestal lifts with Densah burs

COURSE FEES INR 35,000 + GST(18%)

First five registrations are entitled to an early bird discount of 10%.

DR. YAZAD GANDHI

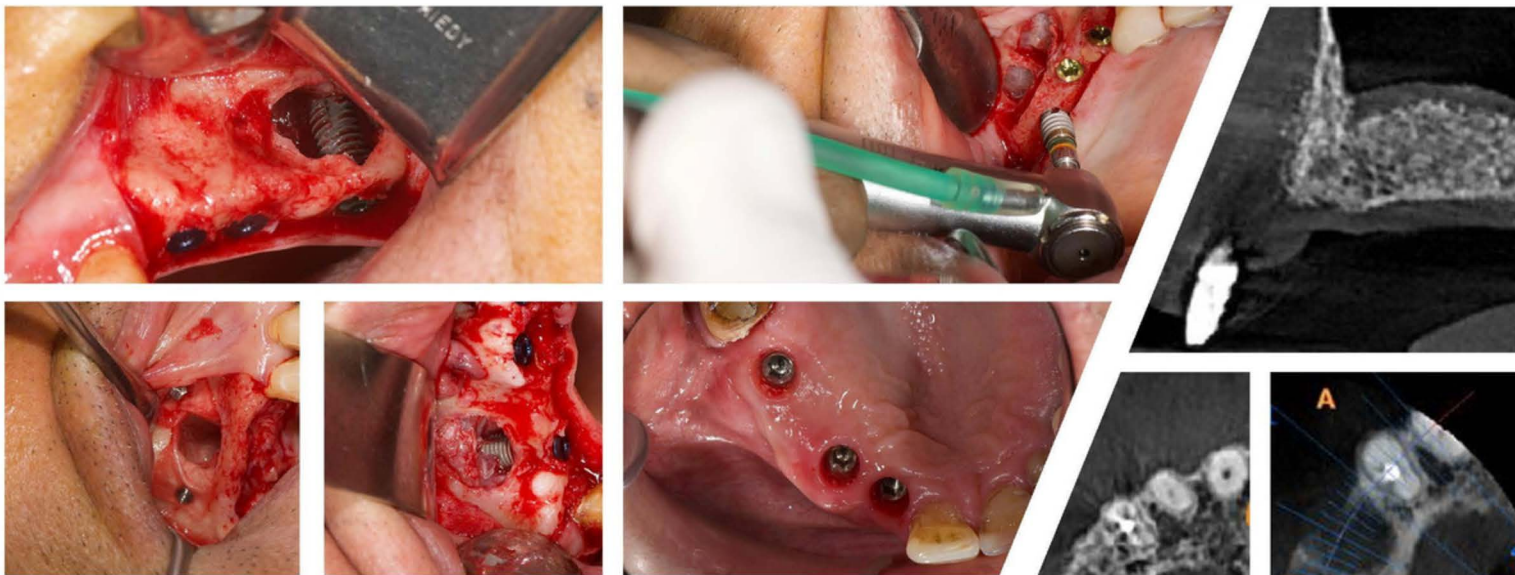

MDS (ORAL & MAXILLOFACIAL SURGERY)

FELLOW ITI & ICD

KOL FOR VERSAH

Trained at:

- Sahlgrenska University Hospital,
Goteborg
- Ninewells Teaching
Hospital, Dundee

CURRICULUM

- Clinically relevant anatomy, physiology and microbiology
- Sinus pathology and its implications
- Radiological assessment- what to look for
- Case selection and assessment criteria- who fits the bill
- Treatment planning- stages and timing
- Transcrestal vs Direct lifts- Decision tree
- Biomaterial options- what to use and why
- Instruments and their applications
- Flap design- where full where split
- Antrostomy design, extent and techniques
- Perforation check and tackle protocol
- Transcrestal lifts using Osseodensification protocol. with the current consensus
- Suturing- Material and techniques
- Postoperative medication and instructions
- Complications - Intraoperative, early postop & delayed postoperative.
- Tackling repeat grafting cases
- Advanced procedures & recent developments

HIGHLIGHTS

- *Osseodensification protocol I & II for indirect lifts on imported bone simulation models.*
- *Lateral window preparation on animal jaws*
- *Learn sequential membrane elevation*
- *Learn to contain a perforation*
- *Learn graft feed protocol*

Relevant full articles will be shared after the course.

DATES :5th - 7th DEC, 2025

Venue: Acharya Foundation,
7 Thirumurthy Nagar, 6th St
Nungambakkam, Chennai
600034.
