

DR. VISHAL GUPTA

ACHARYA FOUNDATION
ADVANCED EDUCATION. SIMPLIFIED.

DIRECT COMPOSITE & RUBBER DAM HANDS-ON COURSE

DIRECT POSTERIOR COMPOSITES

Biomechanical load analysis
Anti-Fragile cavity prep design
Choosing the right Matrices & Wedges
Efficient Bonding protocol
Preventing Post Op Sensitivity
Proximal Contours and Contacts
Managing Deep Subgingival Margins and Isolation
Anatomical Occlusal Build- up techniques
Simple Finishing and Polishing protocol

DIRECT ANTERIOR COMPOSITES

Properties to look for in anterior composites
Shade selection
Concept of hue, chroma, value, opalescence, translucency
Hiding the grey margins.
Understanding dentin and enamel opacities of various composites for effective layering different
Layering techniques where to use mono/dual/multiple layers
Steps to simple yet predictable finishing and polishing

RUBBER DAM ISOLATION

Armamentarium
Selection of Clamps & Dam
The Art Of Floss Ties & Inversion
Single tooth Isolation
Quadrant Isolation
Last tooth isolation and matricing
Split dam Isolation
Isolation and cementation
Clampless isolation
Isolation in deep proximal margins
Isolation of badly broken teeth
Video Illustrations

NOVEMBER 13-15, 2026
LUNCH AND SNACKS WILL BE PROVIDED

ACHARYA FOUNDATION
7, 6th St, Tirumurthy Nagar,
Nungambakkam, Chennai, Tamil
Nadu 600034

₹ Course Fee: Rs. 55,000
(Including GST)
